

Transportation Services

Handling Transportation Losses Since 1962

From Custard's early beginning the company's growth has been strongly driven by its successful partnerships with major trucking companies, insurance companies with commercial transportation risks and self-insured risks. Our experienced adjusters understand the transportation industry and are committed to reducing the liability risks associated with accidents on the road.

On-Scene Investigations

We pride ourselves on being the **premier adjusting firm for on-scene transportation investigations**. Clients can utilize our **24/7/365 Hotline** to ensure an **immediate response** by a CIA adjuster. Our network of company owned locations provides **true nationwide coverage** to our client partners.

Environmental

CIA's Environmental Division provides a combination of education, experience, and training to ensure superior claims management. We maintain a **nationwide database** of response contractors who conduct remediations of **environmental spills and other incidents** anywhere in the U.S.

Heavy Equipment

Our Heavy Equipment Division is staffed with experts certified to appraise all types of **commercial equipment**. Timely delivery of appraisals and supplements ensure your equipment will be back on the road quickly.

Third Party Property Damage

CIA Adjusters are experienced in preparing third-party property damage appraisals. Our centralized Property Division provides oversight and quality control to our field adjusters, guaranteeing an **accurate and timely work-product**.

Cargo

CIA houses a centralized cargo division that provides **expert oversight** for any cargo related issues. This unit communicates directly with our field adjusters to ensure all proper handling procedures are followed.

SIU

Whether you're in need of a comprehensive background check, claims history report, full in-person surveillance, or any other activity in our SIU suite, Custard now has the ability to assist through a network of **highly qualified, licensed investigators**.
